

NOIR  
LUMIERE

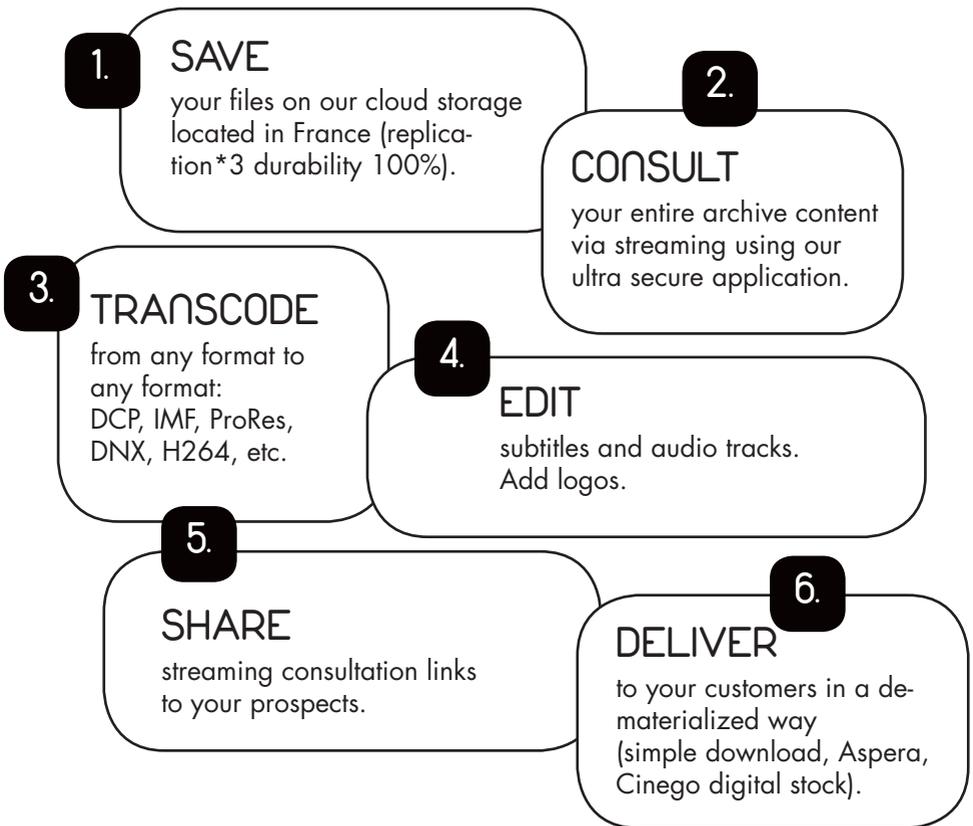

Noir Lumière is an innovative platform  
that allows for the long-term preservation  
on dematerialized exploitation  
of all your film files.

KEEP YOUR HANDS ON YOUR IMAGES

## SAVE & HANDLE YOUR CINEMATOGRAPHIC CATALOG

Noir Lumière makes it possible to gather all your contents in a unique and customizable space that will allow you to interact with all your interlocutors.

We guarantee the durability of your data by triple replication performed in two data centers located in France. We have associated a set of services remotely controlled by a Mac, PC and Smartphone application.

“

The best policy for preserving film works is to guarantee their permanent and easy exploitation, directly operated by the rights holders.

”

The interfaces of the Noir Lumière application  
are intuitive.

No need to be an IT genius to use the platform.

## AMONG OUR CUSTOMERS:

Les Films du Losange,  
the Short Film Agency,  
Apollo Films...

**Noir Lumière was born from an idea developed  
by professionals whose individual expertise  
complements one another's.**

An idea that came together in 2015 and was based on the observations and analyses that each of them was able to make in recent years, as digital technology became essential to filmmaking and image management. Together, they created Noir Lumière, a platform that offers a global solution that is naturally upgradeable and perfectly secure.

**But nothing beats a demonstration,  
so let's meet.**
